Train the Trainer

OVERVIEW

Participants will gain insights into various training methodologies, theories, and tools to create engaging and impactful training experiences.

LEARNING OUTCOMES

Participation in this course will give you:

- Awareness of the common challenges and blockers to training and learn effective strategies to overcome them.
- Awareness of Maslow's Hierarchy of Needs and understand how it influences learners' motivation and engagement in the training process.
- Knowledge of Adult Learning Theory to create engaging and learner-focused training sessions that promote active participation and knowledge retention.
- Knowledge of the 70:20:10 model of learning and development and leverage its principles to integrate formal, informal, and experiential learning within the workplace.
- Ability to incorporate training seamlessly into the flow of work, ensuring that learning is integrated into daily tasks and routines.
- Knowledge of different Assessment Methods to measure the effectiveness of training and evaluate learners' comprehension and skill acquisition.
- Awareness of synchronous and asynchronous learning approaches and their suitability for different training contexts.
- Ability to build engaging and impactful training content, including instructional design principles, multimedia integration, and interactive learning activities.
